EDUCATION

Western University

London, ON

Bachelor of Engineering Science - Software Engineering — GPA: 3.7

Sep. 2023 – Apr. 2027 (Expected)

- **Relevant Coursework:** Algorithms and Data Structures, DBMS, Software Design, Operating Systems, Statistics

TECHNICAL SKILLS

Languages: TypeScript, Python, JavaScript, Java, C++, C#, SQL

Frameworks/Libraries: React.js, Node.js, FastAPI, Playwright, Vue.js, Flask, TensorFlow.js

Cloud/Databases: AWS (RDS, S3, SQS, SNS), Kubernetes, Docker, PostgreSQL, Redis, Supabase, MySQL, Vercel

Tools & Platforms: Git/GitHub, CI/CD, REST APIs, Claude Code, MCP, Azure DevOps, ArgoCD

Interests: Hackathons, Artificial Intelligence, Hockey, Classic Car Rebuilding, Lego

WORK EXPERIENCE

ConvergentIS

(Remote) Calgary, AB, Canada

Junior Software Engineer | TypeScript, AWS, Kubernetes, Docker, Temporal, RIO

Aug. 2026 – Present

- Build **application and infrastructure code** across 10+ TypeScript/Node.js microservices and Temporal workers, delivering production fixes and **reliability enhancements across shared platform services**.
- Build **developer tooling and automation**, including a diff-driven cross-environment migration engine and workflows spanning **9 Kubernetes clusters**, making specialized production tasks repeatable for other engineers.
- Own **production release engineering end-to-end** across 4 environments, running CI/CD and GitOps deployments, coordinating team readiness and serving as the **primary responder for production incidents**.

Cloud/Software Engineer Intern | TypeScript, AWS, Kubernetes, Temporal

May. 2026 – Aug. 2026

- Absorbed a departing **senior engineer's responsibilities as an intern**, rapidly learning unfamiliar systems while taking ownership of deployments, migrations, automated testing, monitoring, and **production debugging**.
- Led a sandbox **AWS EKS** environment promotion to pre-production and **CI/CD across 10+ Kubernetes microservices**, validating scalable release workflows and resolving **15+ reliability/security gaps**.
- Built AI-assisted automation with **Claude Code + MCP** to audit and remediate cloud security across multiple AWS accounts, reviewing and validating changes, raising SOC 2 preparedness from ~56% toward a **95%+ goal**.

Co-Founder & Chief Technology Officer (CTO)

(Remote) Greenwich, CT, USA

RoleColorFinder | TypeScript, Supabase (PostgreSQL), Stripe

Sep. 2025 – Present

- Co-founded and lead **technical strategy + full-stack development** for RoleColorFinder, translating customer needs into backend services, infrastructure, and **user-facing features** that moved the platform into early revenue.
- Manage a growing engineering team across frontend, backend, AI, QA, and product, leading code reviews, testing, and **frequent releases while reducing application load times by 30%** and maintaining **99% uptime**.
- Architect and maintain production services using TypeScript, Supabase/PostgreSQL, Vercel, and **Stripe**, including authentication, billing, and Slack/Google integrations that support customer-facing workflows and product growth.

PROJECTS

Arden | *TypeScript, Node.js, Claude/OpenAI, Playwright, Bland AI*

May. 2026 – Present

- Built **Arden**, an open-source autonomous AI agent with **2,500+ npm downloads**, independently designing shell and Playwright browser tooling, persistent Markdown memory & autonomous task execution across a host machine.
- Designed a **model-agnostic TypeScript/Node.js architecture** supporting Claude, OpenAI, and other LLMs, with tool calling, messaging integrations, voice automation, and one-command VPS deployment for 24/7 operation.

NutriScan AI - HackWestern 12 Winner | *TypeScript, React, Gemini 2.5 Flash*

Nov. 2025 – Jan. 2026

- Built NutriScan with a team of 4 in a **36-hour sprint**, a multimodal AI/ML app that turns a selfie into **micro/macronutrient and vitality scores** via Gemini 2.5 Flash vision, with a **React + Tailwind** frontend.
- Deployed on DigitalOcean, turning model outputs into **nutrient-aligned meal plans**, presented across **8 rounds of judging** over 2 hours, winning **2 major awards**, validating the idea with **15+ positive user testimonials**.

VOLUNTEERING & CLUBS

Developer — TEDxThirdWard (2025 – Present)

- Built and maintain TEDxThirdWard's official website, managing supporting content and ticketing + media updates.

Co-Founder — Operation Home For the Holidays (2023 – Present)

- Launched an initiative delivering **25+ care packages** with food, water, and blankets across Toronto and London.

Clubs:

- Western Developers Society - Portfolio Team
- Western Investment Club (WIC) - Researcher (Consumer Retail Group): Conducted equity research
